

Interactive Pets

In between naps and being adorable real pets, this cat and dog need real care. Thanks to built-in sensors and speakers this cat and dog will move and sound just like real pets. These animals will react to human touch in the same way as a real pet. You will feel their heartbeats and feel their real life movements. They will also respond to your voice. Their fur coats will feel and look just like the real thing. A new and amazing product for Memory Care Residents!
